Multilateral Special Agreement RID 2/2024
under section 1.5.1 of RID
on the marking of non-UN cylinders carrying
UN No 1001 acetylene, dissolved and UN No 3374 acetylene, solvent free

- (1) By derogation from the provisions of RID 1.6.2.19, acetylene cylinders, which are non-UN pressure receptacles, constructed before 1 July 2023, which are not marked in accordance with 6.2.2.7.3 (k) or (l) applicable from 1 January 2023, may continue to be used.
- (2) This Agreement shall be valid until 1 January 2027 for carriage on the territories of the RID Contracting States signatory to this Agreement. If it is revoked before that date by one of the signatories, it shall remain valid until the above-mentioned date only for carriage on the territories of those RID Contracting States signatory to this Agreement which have not revoked it.
